Dear Dr. Harrison:

I am currently completing a pharmacy practice residency program at the Regional Medical Center in Memphis. During my residency and Doctor of Pharmacy program I have gained experience working with oncology patients. I enjoy the challenges of this patient population and plan to pursue a specialized residency in oncology pharmacy practice.

Please send me an application for your residency program. I have enclosed my curriculum vitae for your review and will be attending the upcoming meetings of the American College of Clinical Pharmacy and the American Society of Health-System Pharmacists. I would appreciate the opportunity to meet with you to discuss my qualifications and the possibility of pursuing your specialized residency.

During the next week, I will contact your office to see if I can arrange a brief session with you at either the ACCP or ASHP meeting. Thank you in advance for considering my request.

Sincerely,

Erin B. Rogers

Dear Dr. Miller:

I anticipate graduating with a Doctor of Pharmacy degree in May 2002 from the Philadelphia College of Pharmacy at the University of the Sciences in Philadelphia. During the past three years, I have been able to gain experience in the area of drug information services through my internships and clerkships. My advisor, Dr. Julia Narducci, has recommended that I contact you about the drug information fellowship offered jointly by your college and Bristol-Myers Squibb.

I have enclosed a copy of my curriculum vitae and three writing samples of drug information monographs I prepared for the Presbyterian Hospital's Department of Pharmacy Services. I would welcome the opportunity to meet with you to discuss your fellowship. If you would kindly contact me at the address I have provided, I would be pleased to schedule an appointment at your convenience.

Sincerely,

David K. Reed
